

End of Internship Report - Intern

Your end of internship report can be in a format of your choice e.g. written, video, online presentation, blog, vlog, etc. The report should be submitted within one month of the end of the internship. A brief report is fine but should include the following:

- For our website - Photo (preferably of yourself) and max 100 words on what you enjoyed most/key things you got out of it
- Description of the internship - role & responsibilities
- What you learned/skills you developed
- Lessons learned – what worked well & what would you have changed about the process and experience?
- Do you think the internship has developed your career? If so, how?
- How do you plan to use the experience/skills in the future?

If you are submitting a written report, we'd love to see a couple of images/photos illustrating your experience. And please do share any highlights you are particularly proud of!
